Objective

Seasoned web developer with 5 years of experience in crafting intuitive and responsive user interfaces. Specialized in React.js, looking for a challenging role to leverage expertise in a forward-thinking organization.

Education

Bachelor of Science in Computer Science
Ipsum University, Ipsum City, IL
May 2018
Relevant Coursework: Web Development, UI/UX Design, JavaScript Programming

Experience

Lead React Developer
Ipsum Digital, Ipsum City, IL
July 2020 – Present

- Spearheaded the development of a customer portal built entirely in React, serving over 50,000 users.
- Collaborated with UX designers to refine and implement interactive web designs.

- Mentored junior developers, leading to a 20% increase in team productivity.

Web Developer
Lorem Web Services, Ipsum City, IL
June 2018 – June 2020

- Developed and maintained 10+ e-commerce websites, leading to a 30% increase in client sales.
- Integrated RESTful APIs to fetch and display dynamic content efficiently.
- Optimized web applications for mobile responsiveness and faster load times.

Technical Skills

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Libraries/Frameworks:** React.js, Redux, Node.js, Express.js
- **Tools:** Webpack, Babel, Jest, Enzyme, Git, npm/yarn
- **UI/UX:** Adobe XD, Figma, Bootstrap

Projects

React Dashboard App
A comprehensive dashboard app built with React and Redux, featuring real-time data visualization.

- Integrated with multiple external APIs to fetch data.
- Implemented D3.js for dynamic data visualization.
